Welcome to Lake Douglas Outfitters

Newfoundland and Labrador's premier backcountry outfitting camp located in Central Newfoundland!

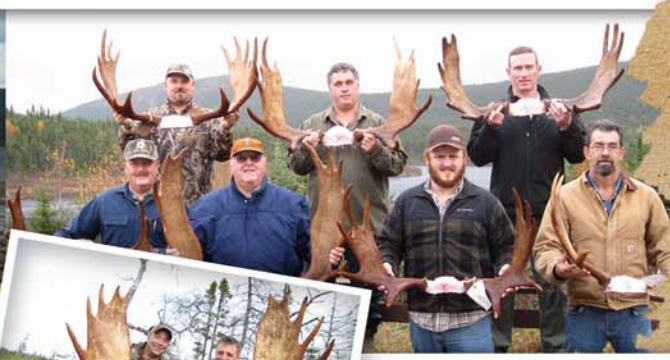

Some come for adventure. Some come for the challenge of the hunt. Some come for the lure of the trophy. Some even come for the escape.

No matter why you come to Lake Douglas Lodge, you will be sure to return.... for the great hunts, beautiful vistas, home-cooking, friendly hospitality, excellent accommodations, and incomparable experience.

Caribou Hunting

Newfoundland is the only place in the world where caribou can be legally harvested. Their small migration pattern helps to preserve our 95% success rate. Our area also has its share of caribou in both the Boone and Crockett and Pope and Young record books.

Moose Hunting

With a 90% success rate, moose hunting is our forte. Our moose management areas (12, 17 and 18) continue to be a prime location for non-resident hunting in Newfoundland. Each year we take sizeable bulls, ranging from 1000-1500lbs, and cows, averaging 800lbs. Some of our moose racks have scored >180 with the Boone and Crockett scoring system.

Bear Hunting

Black bear hunting is optimal in Newfoundland. We have the highest density of black bears in North America. With excellent habitat and a very low hunting pressure in our management area, our bears have the time and space to grow into large animals. The conditions are perfect for you to get your record-class bear as 100% of our hunters did in 2009.

Rates (US\$, taxes included)

Our rates include 1:1 guided hunts, except black bear hunts which are 2:1; all licenses and tags; transportation between Deer Lake airport to the lodge; first-rate semi-private accommodations; all meals, snacks and trail lunches; meat handling; and trophy preparation.

*A non-refundable, transferable deposit of \$2000 (US) is required to secure a combination hunt while \$1500 (US) will secure a single hunt.

Combination Hunts

Combination hunting can maximize your experience. Because of our location, we can hunt moose, caribou and bear at the same time; this is what makes our combination hunting packages so popular.
